

# Allaah made Everything

Allaah made everything

He made everything you see

He made your Mum and your Dad

And He made you and me!

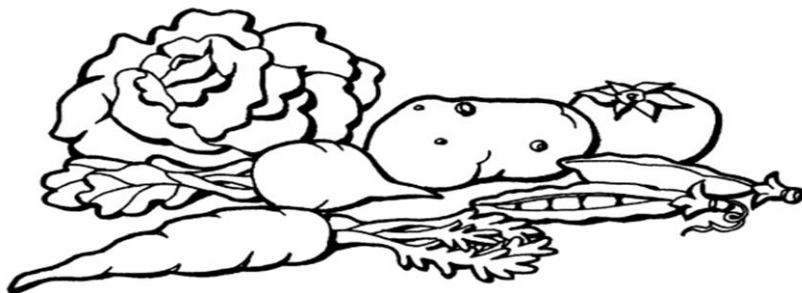

He made the clouds in the sky

He makes the wind blow

He makes it rain down on the soil

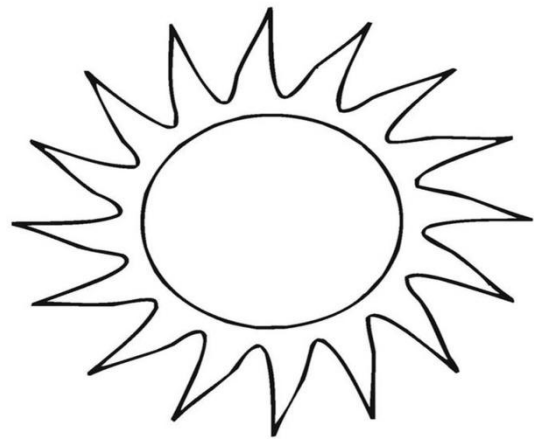

So trees and plants can grow

He gives us food  
So we can eat  
Vegetables  
And grains and meat

He gives us water  
Sweet and pure  
But that's not it  
He gives us more

He made the Moon  
He made the Sun  
Light and warmth  
For everyone!

Who else can do  
All these things?  
No-one at all  
Not even kings!

Allaah takes charge  
Of all there is  
All that we have  
Is really His

He made each thing  
And takes care of it  
**Don't pray to another**  
**Not even a bit!**
