Answers

Moses sets off immediately to seek knowledge..

So Moses set out along with his (servant) boy, Yusha' bin Nun and carried a fish in a large basket ...
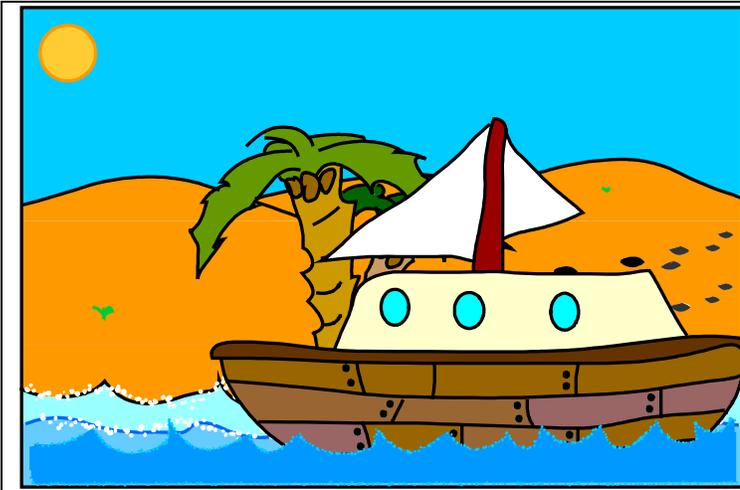

1. Yusha' ibn Nun (As)

2. At the rock where the two seas meet. This is where they lost the fish and met the man (Al-Khadir, As) covered in a garment.
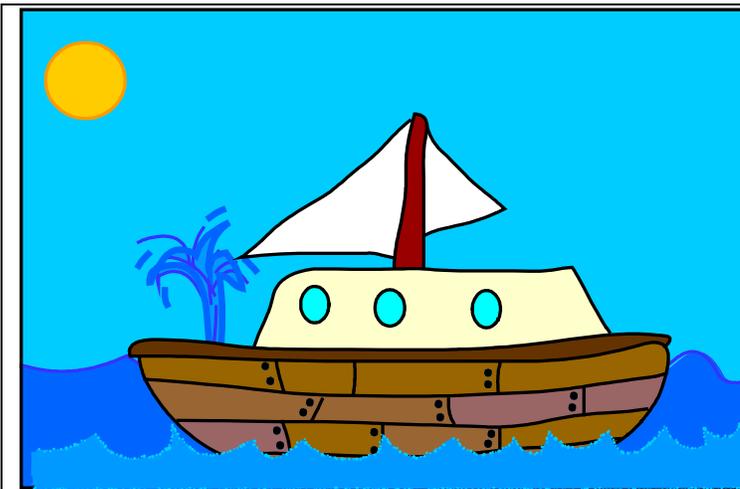

Al-Khadir only has knowledge that Allah (swt) has made him aware of and denies that he has knowledge of all matters.

Al-Khadir replied, "Verily! You will not be able to remain patient with me, O Moses! I have some of the knowledge of Allah which He has taught me and which you do not know, while you have some knowledge which Allah has taught you which I do not know."
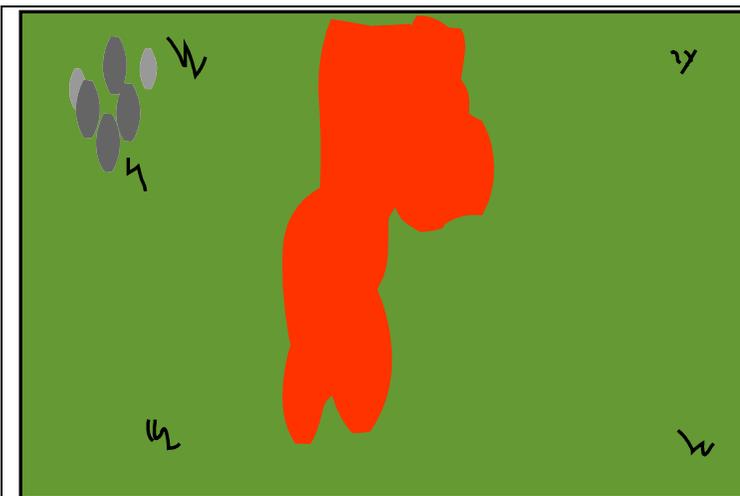

Why did al-Khadir and Moses (as) not pay the people of the boat any money?

Because neither Moses nor al-Khadir had any wealth and this is further emphasized in two instances in this story, when Moses first set off all he took was a fish in a basket and when Moses and Al-Khadir arrived at the town and Al-Khadir repaired the wall Moses questioned why he never took wages for doing this act. This highlights their dependency upon Allah to provide for their means and their lack of interest in seeking worldly gains.

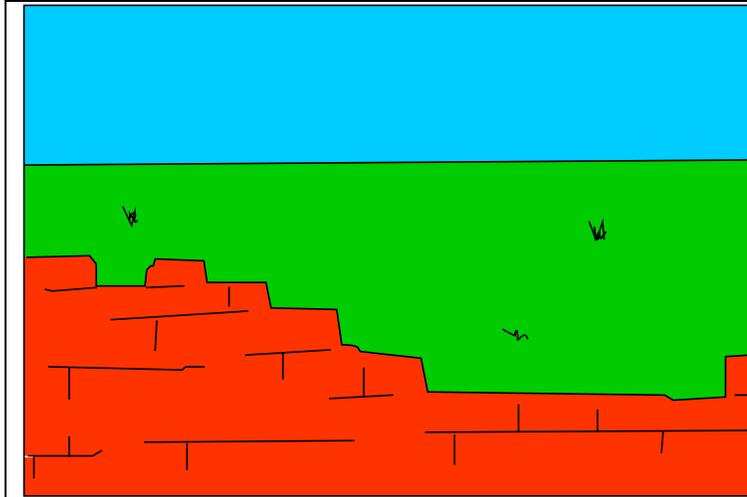

Why did al-Khadir scuttle the boat of the people who provided transport for them without cost?

Moses said, "These people gave us a free lift but you have broken their boat and scuttled it so as to drown its people."

Why did al-Khadir kill a young boy?

Moses said, "Have you killed an innocent soul who has killed none."

Why did al-Khadir rebuild the wall for free in a town of people who refused them food and drink?

Moses said, "If you had wished, surely you could have taken wages for it."
