

Allaah made Everything

Allaah made everything

He made everything you see

He made your Mum and your Dad

And He made you and me!

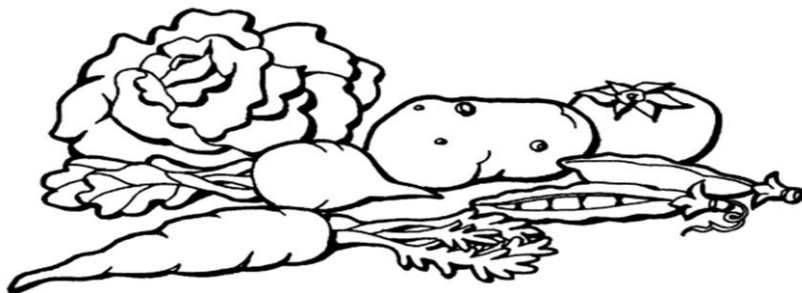

He made the clouds in the sky

He makes the wind blow

He makes it rain down on the soil

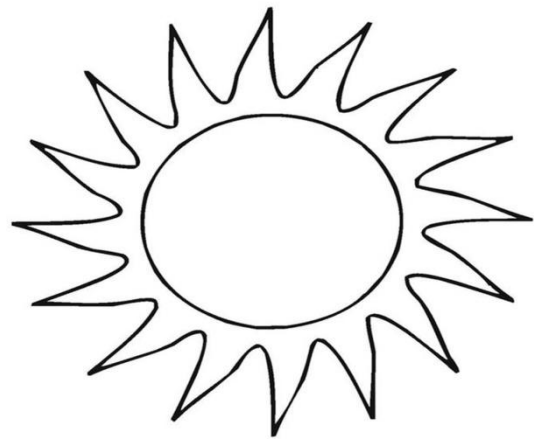

So trees and plants can grow

He gives us food
So we can eat
Vegetables
And grains and meat

He gives us water
Sweet and pure
But that's not it
He gives us more

He made the Moon
He made the Sun
Light and warmth
For everyone!

Who else can do
All these things?
No-one at all
Not even kings!

Allaah takes charge
Of all there is
All that we have
Is really His

He made each thing
And takes care of it
Don't pray to another
Not even a bit!
